

SENIOR SOFTWARE ENGINEER (API) at KARZA TECHNOLOGIES

Karza Technologies enables financial institutions to take instant credible decisions. We are the largest data, analytics, automation, and decisioning solution provider to financial institutions, catering to the entire lending lifecycle from onboarding to diligence & monitoring to collections. Karza Technologies solutions enable systemic fraud prevention, risk management, compliance & automation through superior data engineering and deep tech (NLP, CV) applications. In a nutshell, Karza stands on the trifecta of digitization: **automation, enhanced diligence, and robust decisioning** for straight-through processing; thus, creating a state-of-the-art digitization process without compromising on security and quality. Karza Technologies is a pioneer in the services it offers and has successfully acquired a very diverse portfolio of 330+ live clients, spanning across the largest gamut of use cases in the industry.

We are a B2B Fintech company based in Mumbai in Worli with a 235+ strong workforce; Karza Technologies was also named one of LinkedIn's 25 hottest companies to work for. Our Co-Founders, Omkar Shirhatti, Gaurav Samdaria and Alok Kumar have been featured in the Fortune 40 under 40, 2021; we are backed by both pedigreed financial investors and experienced industry veterans including Rajan Anandan, Singapore Angel Network, DIBS, Anirudh Damani, Singularity Ventures (Madhu Kela Family Office), Harish Engineer (Ex ED at HDFC Bank) and Vineet Rai (JM Financial Director), among others.
