

**Applied AI Researcher****The opportunity:**

If you have pursued a PhD or masters and are looking for a place, where you can apply your research instead of just pure research focused on publication only? If so, join us and apply your skills, and research on various Cactus Labs products that makes a real difference to millions of researcher's lives across the world.

**Responsibilities:**

- Immerse yourself in providing cutting-edge solutions to real world, large-scale problems
- You have the opportunity to realize your ideas in products and services used worldwide
- You would collaborate with engineers, researchers to work on something impactful and meaningful

**Requirements (Desired skills & experience)**

- We welcome applicants who are
  - Close to completing Master's or PhD degree in Computer science.
  - Completing a postdoctoral position.
  - Have comparable research experience
- 2+ years of applied AI research experience.
- Experience in building Machine translation, Natural language generation, and grammatical error correction systems.
- Experience with one or more general-purpose programming languages: C++ or Python.
- Knowledge of common machine learning frameworks.
- Experience with research efforts including having published papers at conferences(NeurIPS, ACL,AAA, EMNLP etc)
- Ability to design and execute on research idea.
- You are self-motivated, excellent problem solver, a go-getter.
- Strong computer science fundamentals (data structure, algorithms, architecture and OO design)
- Relevant work experience including internship or full time industry experience as a researcher in a lab is plus.

**Job Location:**

Remote, anywhere in India

## **Remuneration:**

1,500,000 – 3,000,000 per annum

## **About us:**

Cactus Communications is a technology company accelerating scientific advancement. We collaborate with researchers, universities, publishers, academic societies, and life science organizations. We offer AI-powered scholarly publishing solutions for journals and researchers; editorial, translation, education, and training solutions for researchers; strategic and tactical scientific content solutions to global life science organizations; and solutions for science dissemination and engagement with peers, public, and policymakers for wider research outreach. We also incubate seed-stage and early-stage startups that share our mission to solve global problems with science and technology solutions. We have offices in London, Princeton, Singapore, Beijing, Shanghai, Tokyo, Seoul, Aarhus, and Mumbai; a global workforce of over 3,000 experts; and customers from over 190 countries.

## **Know about our Culture:**

The CACTUS culture is the glue that binds us together as we work towards the same shared goal.

*We are “One CACTUS”. You are a Cactizen regardless of where you work.*

*We take pride in our diversity, respect each other, and call out bias whenever we see it.*

*We focus on outcomes rather than formalities. Everyone is on first-name basis.*

*We are selective and hire only those who share our vision and values*

CACTUS has always been driven by its culture. It sets us apart and attracts people who want to maximize their potential at work and in life. It describes our unique work practices in three aspects: People & Life, Performance & Career, and Business & Leadership.
