Respected Sir/Madam,

Greetings from Inficon Futures!

We hope that this mail finds you in great health and happiness!

Inficon Futures is pleased to offer interesting internship opportunities to the students of the 2nd/3rd year of the technical department of your college.

About Inficon Futures:

Inficon Futures is an education and career planning start-up, which aims at assisting students through a technological approach backed by Artificial Intelligence.

We live in an age where career planning is a crucial step towards building a successful future. The focus on exploring one's passion and the development of skills has also increased tremendously. This calls for a need for making informed decisions that will directly influence your career. Inficon assists students right from the age of 11, to make the right decisions so that they are able to plan their career and educational goals.

Our objective is to revolutionize career mentorship by ensuring that everyone has access to professional guidance from the comfort of their home. We assist students through a technological approach which reduces costs and assuages the severe shortage of mentors, backed by our industry-leading artificial intelligence and transform mentorship into a widely accepted and accessible avenue. People, irrespective of their geographical or lingual shortcomings will be able to avail our services.

Inficon strives for a two-fold endeavour – an App developed under the able guidance of experts and a year-long subscription with a 24*7 access to consult experts via text, call or live interactions. Our services include a comprehensive analysis of the child's interests to career selection, education planning and skill development.

Inficon aims to put an end to the expensive and tedious process of career building and make sure that a lack of guidance or financial circumstances do not become a hindrance for pure talent and passion!

This internship can help the students to gain practical experience along with your college academics and take a step towards knowing their career prospects in a better way.

Please Circulate this information to the concerned students.

Below are the Highlights of the internship-

Profiles- Web developer,

Python developer, Flutter developer Intern

Tenure- 8-12 weeks

Stipend- NIL

The selected intern's day-to-day responsibilities and the skill set required are mentioned in the below attached document. Please share it with the interested students for a better understanding of the internship.

1. If interested, the students have to register using the below-given form link and fill in the necessary details.
2. After which the students will be contacted and given a small task to be completed and submitted within the time span of 24hrs (after the task is allocated)
3. The task will be reviewed and the students will have a talk with the CTO of the company for further final selection.
4. It will purely be a work-from-home role with flexible timings where the candidate will only have to dedicate 4-5 hours per day.

The interested students may register themselves using this link-
