Tally
POWER OF SIMPLICITY

About Tally

Over the last 35 years, we have come to be known as THE accounting software company in India. An estimated 7 or 8 out of 10 businesses in India use us as their system of choice. We also have a significant and growing international presence with teams in the Middle East, East Africa, South East Asia, and other South Asian Countries.

Over the next few years, we are hoping to impact the lives of several hundred million businesses across the globe with our vision of the future of business applications. Some other things you may want to know about us – we have the largest partner network in the IT industry in India with over 28,000 partners. We are a growing family with over 1000+ people, and have offices across the country, in the Middle East, in Africa, and in South East Asia.

Our culture accepts, includes, and promotes diversity. With an inclusive recruitment process, we ensure equality, fairness, and empowerment for all recruits and employees to access and enjoy equal opportunities to grow, irrespective of their background. We encourage diversity of all kinds, including but not limited to nationality, religion, sexual orientation, gender identification, belief system, caste, ideologies, ethnicity, age, disability, and background. We take conscious effort to attract applicants from different diversity dimension groups to achieve and maintain a workforce that shows diversity across levels and functions.
